

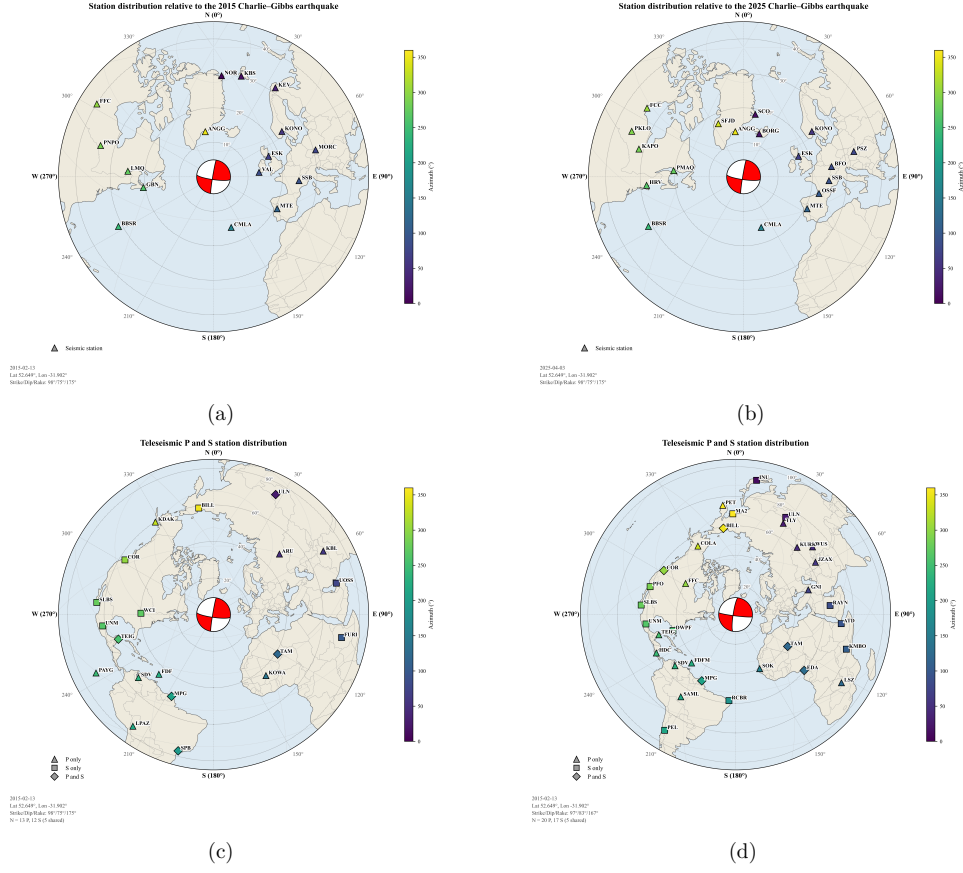

Figure 1: Station distribution for the 2015 and 2025 Charlie-Gibbs earthquakes. a) Distribution of stations used for the RSTF inversion for the 2015 earthquake. b) Distribution of stations used for the RSTF inversion for the 2025 earthquake. c) Distribution of stations used for the teleseismic inversion for the 2015 earthquake. d) Distribution of stations used for the teleseismic inversion for the 2025 earthquake. The focal mechanisms are shown in each panel, with red and cyan stars marking the hypocenters of the 2015 and 2025 earthquakes, respectively.
